Projects

ChallengeWK8Vehicle-Builder
|https://github.com/GoldenBobbyG/ChallengeWK8Vehicle-Builder

- Developed a vehicle builder application allowing users to customize and visualize different vehicles.
- Built API integration for dynamic data updates and interactive UI enhancements.
- **Technologies Used:** JavaScript, Node.js, CSS, Typescript

MyReads |https://github.com/GoldenBobbyG/MyReads

- Designed and developed an interactive book-tracking app that allows users to categorize and manage their reading lists dynamically.
- Designed to help influencers to keep track of what books they have read and reviews they have posted to their social media.

- **Technologies Used:** JavaScript, CSS,HTML, Team Project

Nine-to-Five Tracker |https://github.com/GoldenBobbyG/ninetofivetracker

- Manage a company's employee database from scratch.
- Developed database schema and backend logic to ensure smooth integration and data retrieval.
- **Technologies Used:** Node.js, SQL, JavaScript, Typescript, Postgres

---

Experience

Yard Coordinator
Target Distribution Center, Hampton, GA
May 2024 – Present

- Foster a "safety-first" culture by ensuring compliance with safety protocols and addressing unsafe behaviors.
- Conduct routine yard audits, update the Yard Management System, and manage trailer movements.
- Communicate with executives on trailer operations and collaborate with transportation teams to optimize freight flow.
- Perform trailer inventories and ensure operational readiness.
  Key Accomplishments:
    - Implemented safety training programs, reducing safety incidents.
    - Streamlined yard audit routines, enhancing real-time updates and operational efficiency.

AWS Technical Recruiter
Amazon, Atlanta, GA
Feb 2022 – Jun 2023

- Partnered with hiring teams to optimize assessment and recruitment processes.
- Recommended and implemented recruitment strategies to drive long-term company growth.
- Utilized applicant tracking systems to maintain accurate hiring metrics and track candidate progress.
  Key Accomplishments:
    - Ranked #1 in recruiting activity (Summer 2022).
    - Led first mid-level candidate hires for the team in 2023.

Lead Logistics Specialist
Amazon, Atlanta, GA
Aug 2016 – Feb 2022

- Extracted and analyzed data from multiple databases (Excel, Access, SQL) to improve operational efficiency.
- Identified root causes of transportation inefficiencies and implemented process improvements.
  Key Accomplishments:
    - Led the development of the ROC-Equipment WIKI page, gaining over 11,434 views.
    - Collaborated on WIMS development to optimize workflow processes.
    - Secured over $1,000,000 in cost savings by recovering 100,000+ out-of-network trailers and tractors.
    - Trained 23+ new hires, with three advancing to L4 positions.
    - Managed the Track and Trace Team, overseeing 6,000+ loads nightly.
